## Profiles

📌  [Manish-keer19](#)

📌  [manish-keer19](#)

## Summary

● Full-Stack MERN Developer with hands-on experience in React, React Native, Node.js, MongoDB, and Spring Boot. Specialized in real-time applications with WebSocket, JWT authentication, and cross-platform app development. Focused on building scalable, clean, and user-friendly solutions.

## Education

● **Medicaps University**

Indore

7.7

Bachelor of Computer Applications (BCA)

**Aug 2022 May 20025**

🔗 <https://www.medicaps.ac.in/>

## Projects

● **Manish's Bet App**

A real-time betting platform with live 1-minute games like Head or Tail, Wheel Spin, and Forex Trading. Users can register, manage wallet transactions, and participate in fast-paced games.

**March 2025 – Present**

Built with React, Node.js, WebSocket, and MongoDB. Focused on real-time game logic, secure wallet system, and smooth UI. Backend handles betting logic and WebSocket broadcasting.

React, Node.js, WebSocket, MongoDB, Real-Time, Betting, Wallet, Live Games
