

Manish Keer

Full-Stack Developer — Backend Engineer — MERN Stack

Indore, India

manishkeer530@gmail.com | +91 9691636336 | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Entry-level Software Engineer with hands-on experience building scalable, real-time web applications. Strong background in backend development, REST APIs, WebSockets, authentication, and cloud deployment using Node.js, NestJS, Spring Boot, and AWS.

EDUCATION

Medi-Caps University

Bachelor of Computer Applications (BCA), CGPA: 7.7/10

Indore, India

Aug 2022 – May 2025

EXPERIENCE

Full-Stack Developer Trainee

Singaji Software Solutions

Aug 2025 – Oct 2025

Bengaluru, India

- Developed backend APIs and collaborated with frontend teams to deliver production-ready features.
- Worked with authentication, database integration, and API optimization.

PROJECTS

Shell E-Learning Academy | MERN, AWS, Docker, Nginx

2025

- Built a production-ready LMS with student, instructor, and admin dashboards.
- Developed secure REST APIs with JWT authentication and role-based access control.
- Containerized backend services using **Docker** for consistent deployments.
- Deployed on **AWS** and configured **Nginx** as a reverse proxy with SSL and load handling.
- **Live:** shellelearningacademy.com

Real-Time Communication Platform | NestJS, WebRTC, PostgreSQL, Docker, Nginx

2025

- Designed a low-latency real-time system with messaging, presence, and read receipts.
- Implemented audio/video calling using WebRTC with custom WebSocket signaling.
- Dockerized backend and database services for scalable deployment.
- Used **Nginx** for reverse proxying WebSocket traffic and production routing.
- **Live:** nest-chat-frontend.vercel.app

Betting Platform | Node.js, React, WebSocket, MongoDB, AWS

2025

- Built a real-time betting platform with live odds updates and wallet transactions.
- Implemented WebSocket-based architecture supporting concurrent users.
- Deployed frontend and backend on **AWS** with environment-based configuration.
- **Live:** manish-bet-app.vercel.app

Social Media Application | React Native, Express.js, MongoDB, Cloudinary

2024

- Developed a mobile social media app with posts, likes, comments, and follow system.
- Integrated Cloudinary for media storage and optimized content delivery.
- **APK:** Download

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, HTML5, CSS3

Frontend: React.js, React Native, Redux, Tailwind CSS

Backend: Node.js, Express.js, NestJS, Spring Boot, REST APIs, WebSockets, JWT, OAuth2

Databases: MongoDB, PostgreSQL, MySQL, MariaDB

DevOps & Cloud: Docker, AWS (EC2, S3), Nginx, CI/CD

Tools: Git, GitHub, Postman, VS Code, Vercel, Render
